

HARRY GOLDSTEIN

(267) 309-7804 | harryjg22@gmail.com

SUMMARY

Computer Science graduate with a Cybersecurity specialization and CompTIA A+ and Security+ certifications, combining hands-on technical support experience with full-stack Java development expertise. Proven troubleshooting proficiency on Windows and Apple systems through Geek Squad help desk role, supplemented by commercial network infrastructure experience installing Cat-5e cabling and network equipment in retail environments.

WORK EXPERIENCE

Assistant Network Technician (TEKSystems) - Hatfield, PA August 2026 - Present

- Assisting lead network technician with installation of network cabling in Walmart store ceilings.
- Pulling and routing Cat-5e network cables through store ceiling panels to create connections for POS devices, electronic shelf labels, IP Landlines, and digital signs with BrightSign technology.
- Terminating patch cables to patch panels across in network switch locations located throughout the store, maintaining proper connectivity and cable organization.

Consultation Agent (Geek Squad) - Best Buy, Fairless Hills, PA April 2026 – Present

- Serving as primary point of contact for clients seeking support across smartphones, desktops, and Smart TVs; translating complex technical language into clear guidance for informed client decision-making.
- Performing surface-level diagnostics and recommending solutions, including malware removal, data transfers, battery/hardware replacements, and whole-unit replacements.

Software Engineering Trainee (Revature) - Remote September 2025 – December 2025

- Completed evaluations, coding activities, and 2 full-stack application projects covering Java, SQL, RESTful API design, and Spring Framework.

TECHNICAL PROJECTS

Custom Server Infrastructure & Home Automation Integration - Proxmox VE, Home Assistant OS

- Assembled and configured a custom server using an Intel N100 CPU, 16GB DDR4 RAM, a 550W PSU, and an ASRock motherboard to host smart home device services with a cost-optimized design (~\$350 total).
- Installed Proxmox VE hypervisor on a 512GB SATA SSD; configured advanced CPU virtualization settings.

VM Home Lab Help Desk Project - Active Directory, Windows Server, Windows 11 Pro, VirtualBox, ServiceNow

- Configured organizational units (OUs), group policy objects (GPOs), and Active Directory Domain Services (AD DS) using a Windows Server 2022, from which I also ran administrative tasks.
- Simulated common help desk incidents on the user workstation, such as account lockouts, password resets, user provisioning, and access management requests, and resolved the incidents with the Windows Server.
- Documented each incident in ServiceNow using a ServiceNow Personal Developer Instance (PDI).

EDUCATION & CERTIFICATIONS

Bachelor of Science, Computer Science - Cybersecurity Track December 2025

University of Maryland, Baltimore County (UMBC)

Certifications: CompTIA A+ | CompTIA Security+ | Apple Authorized Service Provider (AASP)

SKILLS

- **Administration:** Active Directory, Account Provisioning and Deprovisioning, DNS, DHCP
- **Help Desk:** ServiceNow, VirtualBox, Incident Management
- **Productivity and Tools:** Google Workspace, Microsoft 365, Excel, Jira
